

Increase Your Revenue and Save Time with Galaxy Payment Plans

Galaxy Payment Plans makes it easy for your guests to purchase passes, tickets or retail items by offering flexible terms of payment. It helps streamline your business by automating the billing and pass renewal processes.

An integrated Payment Calculator allows you to present a number of specific payment plan options to suit your guests' financial needs. Ticket sellers and guests can view payment options for purchases in the Point of Sale (POS) transaction window with Galaxy's Payment Calculator. Once guests choose their preference, the ticket seller can apply the down payment (if any), tender the transaction and print the contract.

With Galaxy Payment Plans you can:

- Maximize Your Revenue by Making it Easy to Buy**
Provide guests the opportunity to pay for purchases over an extended period of time. Offer flexible terms of payment, and sales volume increases.
- Create and Maintain Your Own Custom Payment Plans**
You set the terms of the plan. Create multiple plans to offer guests maximum flexibility: Provide them with different options to pay off a contract.
- Set Up Your Payment Plan Quickly and Easily with the Payment Plan Wizard**
Galaxy's Payment Plan Wizard walks you step-by-step through the payment plan setup process.
- Improve Customer Retention with Automatic Pass Renewal**
Reduce non-renewals by minimizing the number of times a guest has to make the decision to buy. Make it easy to renew with automated pass renewal.
- Increase Your Efficiency by Automating the Billing Process**
Automate recurring payments, billing statements, and credit card reprocessing.
- Enhance Customer Satisfaction and Increase Sales with the Payment Calculator**
Offer greater flexibility and easy comparison of payment plan options when making a purchase based on a payment plan. Increase sales by making it easier to buy with specific payment options.
